

**Disney Two Story Modular Project**  
**Update 1/29/21**

Dear Disney Parents and the Community,

Good news! I am pleased to share with you that Silver Creek has started the offsite manufacturing of the modular building sections and this week they are building up the structure of the floors that will be later filled with light weight concrete.

I am also very happy to inform you that our bid opening is fast approaching and that we have a good pool of prequalified contractors interested in bidding to our project. An updated list of prequalified contractors will be posted on the District's webpage by the end of next week.

Regarding the site work, trees are scheduled to be removed next week pending the weather and containers are being scheduled to be moved.

More information coming soon! As always, Thank you for your support!

Larry Cross  
Director of Facilities
