

Disney Two Story Modular Project
Update 12/24/21

Dear Disney Parents and the Community,

This week the focus was on providing power to the new building with the electrical feeder wiring being pulled from the main switchboard through the underground vaults and into the new buildings electrical room. In addition, this week the conduit runs from the vaults to the new building and adjacent portables was completed and concrete placed in the two trenches.

Upcoming focus next week will be to backfill the trenches, complete the pulling of electrical feeders and complete the terminations.

We would like to wish all Parents and the entire Community a safe and Happy Holiday.

Expect more exciting information coming soon!
Thank you for your support!

Larry Cross
Director of Facilities
