

**Disney Construction Q&A**  
**Update 12/04/20**

Dear Disney Parents and the Community,

Due to the Holidays I have incorporated the last two weeks in this update.

I am very pleased to announce that after having received the DSA approval, we have begun the bidding process. We are using a service called Quality Bidders to prequalify Companies that are interested in bidding on the Disney Project. This is done to ensure that the bidders have the ability to obtain Bonding and have the ability to complete the work that is bid on.

The District and Lundgren Management have the planning and bidding process underway with a Target of mid-December to get the first set of bids out to the public. This is very exciting news!

The first stages of the work will be clearing the playground of obstacles such as trees, poles, basketball poles, the ball wall, garden and play equipment. This will be followed by excavation, compaction and the foundation work. We will be going out to bid as soon as everything is in place!

More information coming soon! As always, Thank you for your support!
