

Disney Two Story Modular Project
Update 3/26/21

Dear Disney Parents and the Community,

Silver Creek is currently working on the restroom modules, which are the last modules to complete the building.

This image shows the progress of work on the restroom modules. Soon they will install the doors after the interior work is complete.

In the meantime, the construction preparation phase continues. Our Construction Manager consultant has mobilized to the jobsite and some contractors are expected to mobilize to the site next week.

We are very excited that the beginning of the sitework is close! We look forward to the successful completion of the Two-Story Modular Project and to providing the students of Walt Disney Elementary School with these new and innovative classrooms!

Expect more exciting information coming soon!
Thank you for your support!

Larry Cross
Director of Facilities
