

## Disney Two Story Modular Project Update 3/4/22

Dear Disney Parents and the Community,

This week Izurieta Fencing delivered the rebar cages for the fencing posts that were fabricated offsite. Once the fence posts are delivered, Izurieta Fencing will start the boring and installation of the 12' fence posts and rebar cage, followed by the placement of concrete at the fence post footings.

Focus for the next couple weeks will be completing classroom finishes, testing and inspection of phase 1 irrigation piping, and installation of fence post rebar cages and posts.

We look forward to the start of the concrete flatwork and the fencing installation at the sites east end.

Expect more exciting information coming soon!  
Thank you for your support!
