

**Disney Two Story Modular Project**  
**Update 4/2/21**

Dear Disney Parents and the Community,

We are pleased to announce that the playground equipment has been dismantled and salvaged for reinstallation once the site work is complete.

The earthwork contractor is getting ready for mobilization. Once the contractor is on site, the site clearing and grubbing will start. What it means is that we will have heavy equipment in action at the jobsite very soon.

In the meantime, Silver Creek is still working on the restroom modules this week. The percentage of completion of the off-site building fabrication is 95%.

We look forward to the successful completion of the Two-Story Modular Project and to providing the students at Walt Disney Elementary School with this new and innovative classroom building!

Expect more exciting information coming soon!  
Thank you for your support!

Larry Cross  
Director of Facilities
