

Disney Two Story Modular Project
Update 4/23/21

Dear Disney Parents and the Community,

This week Chalmers Construction finished working on the over-excavation of the building pad and started on the backfill and compaction of the area. Once the backfill and compaction work is finished, the concrete contractor, along with the plumber and electrical contractors, will mobilize to the site to start working on the building foundation rebar and forms, as well as the foundation electrical and plumbing stub-outs.

We are very excited that the project is moving forward and next year we will be successfully delivering the Two-Story Modular Project to the students and community.

Expect more exciting information coming soon!
Thank you for your support!

Larry Cross
Director of Facilities
