

Disney Two Story Modular Project
Update 5/28/21

Dear Disney Parents and the Community,

This week Santa Clarita Concrete mobilized and completed their site surveying and building lay out. Equipment for the start of their excavation work was delivered to the project site and the trenching for the new building footings is now under way.

Once their excavation has been completed their formwork and rebar installation is scheduled to follow. Electrical and plumbing stub outs as well as the stem wall and elevator slab are activities scheduled in the coming weeks.

We are looking forward to the completion of the building foundation in the next several weeks!

Expect more exciting information coming soon!
Thank you for your support!
