### HiSET Student

Continuing education is never too late! At 57 years of age, I decided to go back to school to earn my high school degree. I dropped out of school in 11th grade. Burbank Adult School offers me that opportunity. Given the COVID pandemic, BAS has online classes with the best teachers I could have ever hoped for. They are genuinely caring, brilliant, compassionate, and very engaging. At my age, relearning can be daunting, but is attainable by BAS. I am incredibly grateful for Burbank Adult School's support and encouragement to continue and pursue further education. Without a doubt, education is powerful.

Mr. Berhitoe's class is amazing! He explains everything well to the T. He is patient and understanding. I wish I had him as my math teacher back in high school. I am very grateful he is teaching and because of him I am actually interested and cannot wait to take my HiSET test.
