

Our DHH Program welcomes you to our beautiful and modern, expanded facility. Our new facility offers more rooms, an indoor gym, a teens only center, and much more. As the only program of its kind in all of the Boys and Girls Club of America, the DHH Program provides after school enrichment through tutoring, homework assistance and recreational activities facilitated in American Sign Language. We provide staff/interpreters for any programs members join, such as STEM, Athletics, Teen Night, Art, Robotics, leadership, and many more. We also have ASL Club for those who need a little support and motivation with their signing and English skills.

We welcome all Deaf, Hard of Hearing, CODAs, and SODAs to join our after school enrichment program!

We've moved!

\$85 Registration fee. Monthly membership fees are waived for DHH Program Members!

Transportation arrangements can be made through your home school district. If transportation arrangements cannot be made, we pick up from Washington, John Muir, and Burbank High. Please note, buses and vans make multiple pick ups. It is recommended that members who qualify for transportation through the district take advantage of that service. Once registered, parents must contact us to waive monthly fees. Parents of new members must contact us prior to registration.
