

Happy Fall Monterey Families!

Fall is my very favorite season. I love when the days get a little cooler, the shadows get longer and we get to start drinking cozy drinks and carving pumpkins.

Fall also means we are closing out the first quarter! We only have a few weeks to go. At the end of quarter 1 you will receive a report card in the mail. I am pleased to announce that most of our students are doing really well and attendance has never been higher. The last week of Q1 is October 16- 20. It is finals week and we have half days. School is out at 12:30. Quarter 2 starts October 24 and students will receive a new schedule.

The start of the year has been about new beginnings. Students have been learning about themselves and planning for graduation. We have talked a lot about student safety. The staff and students are learning about how to report concerning behavior, what behavior should be reported, and how to be safe during a school emergency. We have had a fire drill and lockdown drill.

In October we will be having a drug abuse awareness week. Young people today have so much information and exposure to unhealthy or dangerous items or information. We are going to spend time teaching students about healthy lifestyles and choices. We are also going to give them some resources for help. As always we have family services of Burbank supporting us with counseling services. If you think your child would benefit from counseling please contact Ms. Sharaga.

As always please reach out with any questions or concerns you have about your child. We are here to help.

Thank you,

Ms. April Weaver
